**Macon, Georgia**  
**April 12, 2016**

ESG's partnerships in Georgia have been recognized by the Georgia Association of Water Professionals (GAWP) for outstanding facility operations. The GAWP awards process, conducted by regulatory agency professionals in the state of Georgia and operators from other systems, is very rigorous and requires year-round preparation.

"We would like to thank the GAWP and their staff for their continued support of water and wastewater utilities in Georgia. These prestigious industry awards provide validation that ESG Operations, Inc. is the foremost utility contractor in the state of Georgia. ESG Operations, Inc. has received more awards for operational excellence in Georgia and across the Southeast than all of our competitors combined.

We extend our sincere thanks and congratulations to all ESG associates who invested countless hours preparing for the facility inspections as well as assisted all of our Top Op applicants," stated ESG principals, Clay Sykes, P.E. and Dan Groselle, P.E.
